Refrigeration  
and  
Air Conditioning  
in the  
Scottish Highlands,  
is just a part of  
what we do

## Profile of Network Refrigeration

:: Our company has been established for around 10 years and is run by a husband and wife partnership, employing 3 engineers and having 3 fully equipped service vans.

:: All our engineers are qualified and registered CFC handlers and are conversant with all types of refrigerant now available.

:: Our vans are fully equipped and carry many spares with them to enable the engineer to carry out immediate repairs. On many occasions only having to make one visit to the site.

:: Sam Summersbee, who runs the business, has worked with refrigeration and air conditioning for the last 25 years, going into the business as an apprentice and achieving many qualifications including City & Guilds in Refrigeration.

:: We do not charge any mileage but the times taken to travel to works are charged at the appropriate hourly rate.

:: We do offer an emergency call out service and would also endeavour to give a same day service wherever possible.

:: Our areas of operation are Inverness and The North, up to John O'Groats also the Western Isles, Fort William and even as far south as Oban. Whilst Grantown on Spey and Elgin are also in our area.

Our business is, keeping you cool
